

Solanum (3 Stage) Cluster 10

Biological Process

GO:0009073, aromatic amino acid family biosynthetic

GO:0015689, molybdate ion transport

GO:0000272, polysaccharide catabolic process

GO:0000956, nuclear-transcribed mRNA catabolic

GO:0009231, riboflavin biosynthetic process

GO:0009225, nucleotide-sugar metabolic process

GO:0010035, response to inorganic substance
