

Pimpinellifolium Cluster 8

Biological Process

GO:0006355, regulation of transcription, DNA-templat

GO:0002098, tRNA wobble uridine modification

GO:0006597, spermine biosynthetic process

GO:0000103, sulfate assimilation

GO:0008295, spermidine biosynthetic process

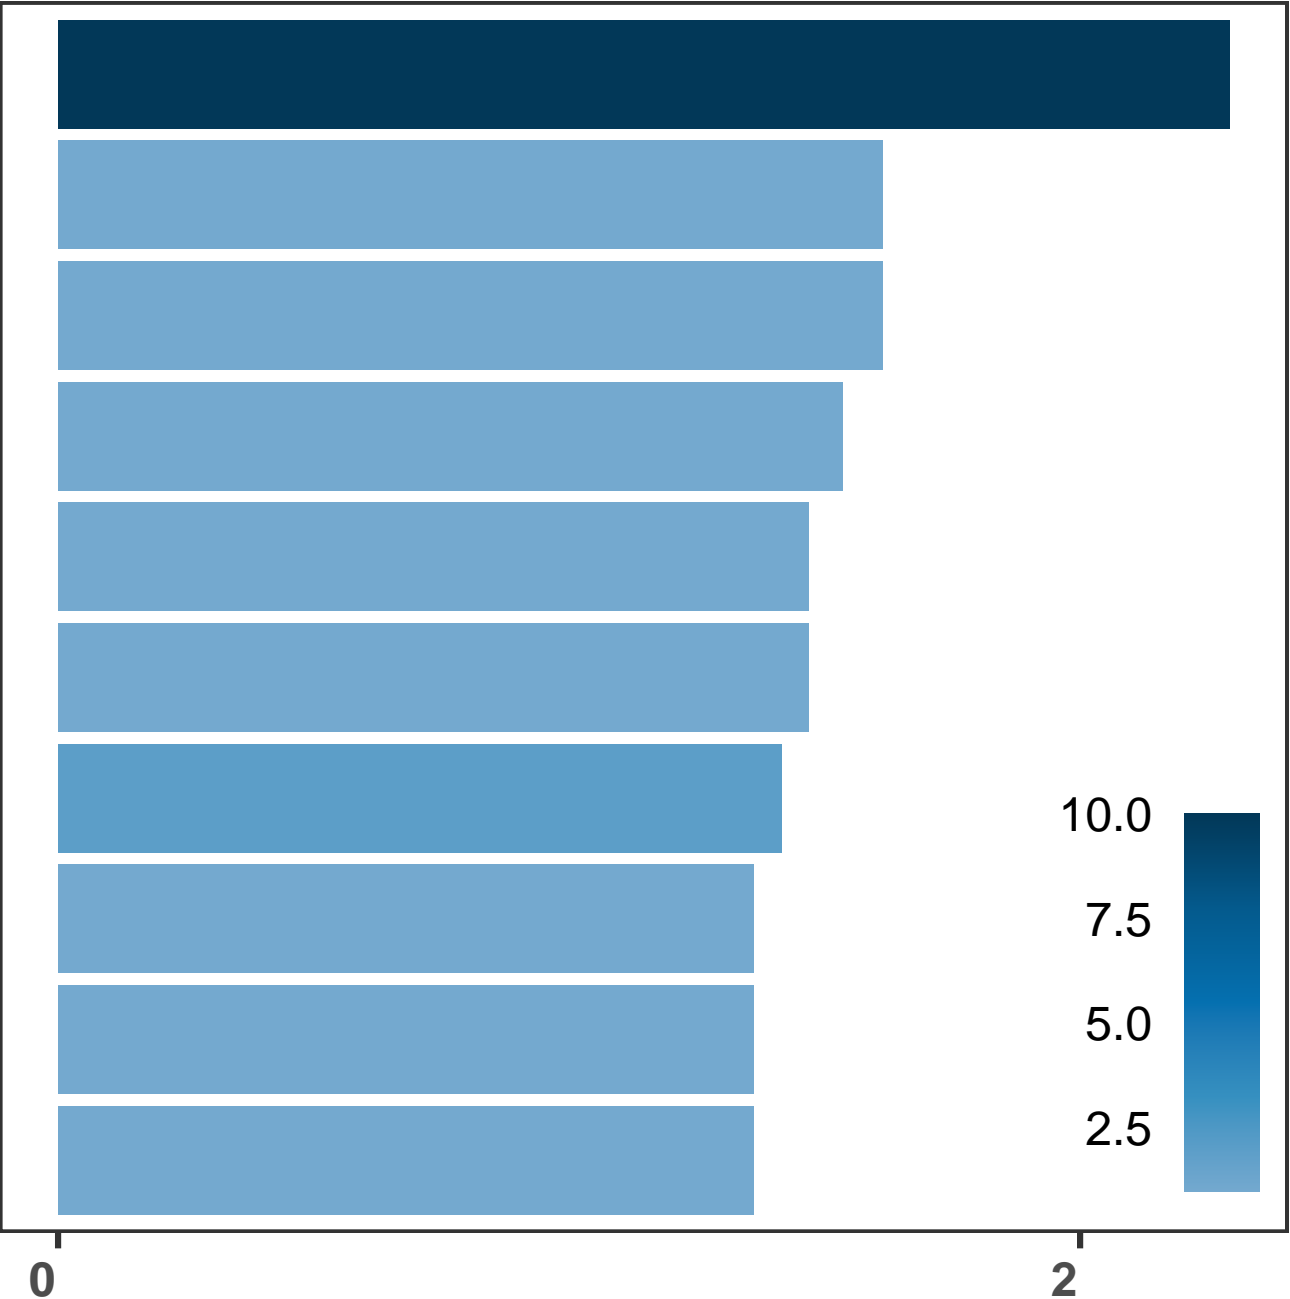

GO:1901642, nucleoside transmembrane transport

GO:0007018, microtubule-based movement

GO:0006075, (1->3)-beta-D-glucan biosynthetic

GO:0009231, riboflavin biosynthetic process

GO:0000956, nuclear-transcribed mRNA catabolic

Log Fold Enrichment
