

Solanum (3 Stage) Cluster 7

Biological Process

GO:0006165, nucleoside diphosphate phosphorylation

GO:0006228, UTP biosynthetic process

GO:0006241, CTP biosynthetic process

GO:0006183, GTP biosynthetic process

GO:0042026, protein refolding

GO:0015979, photosynthesis

GO:0001522, pseudouridine synthesis

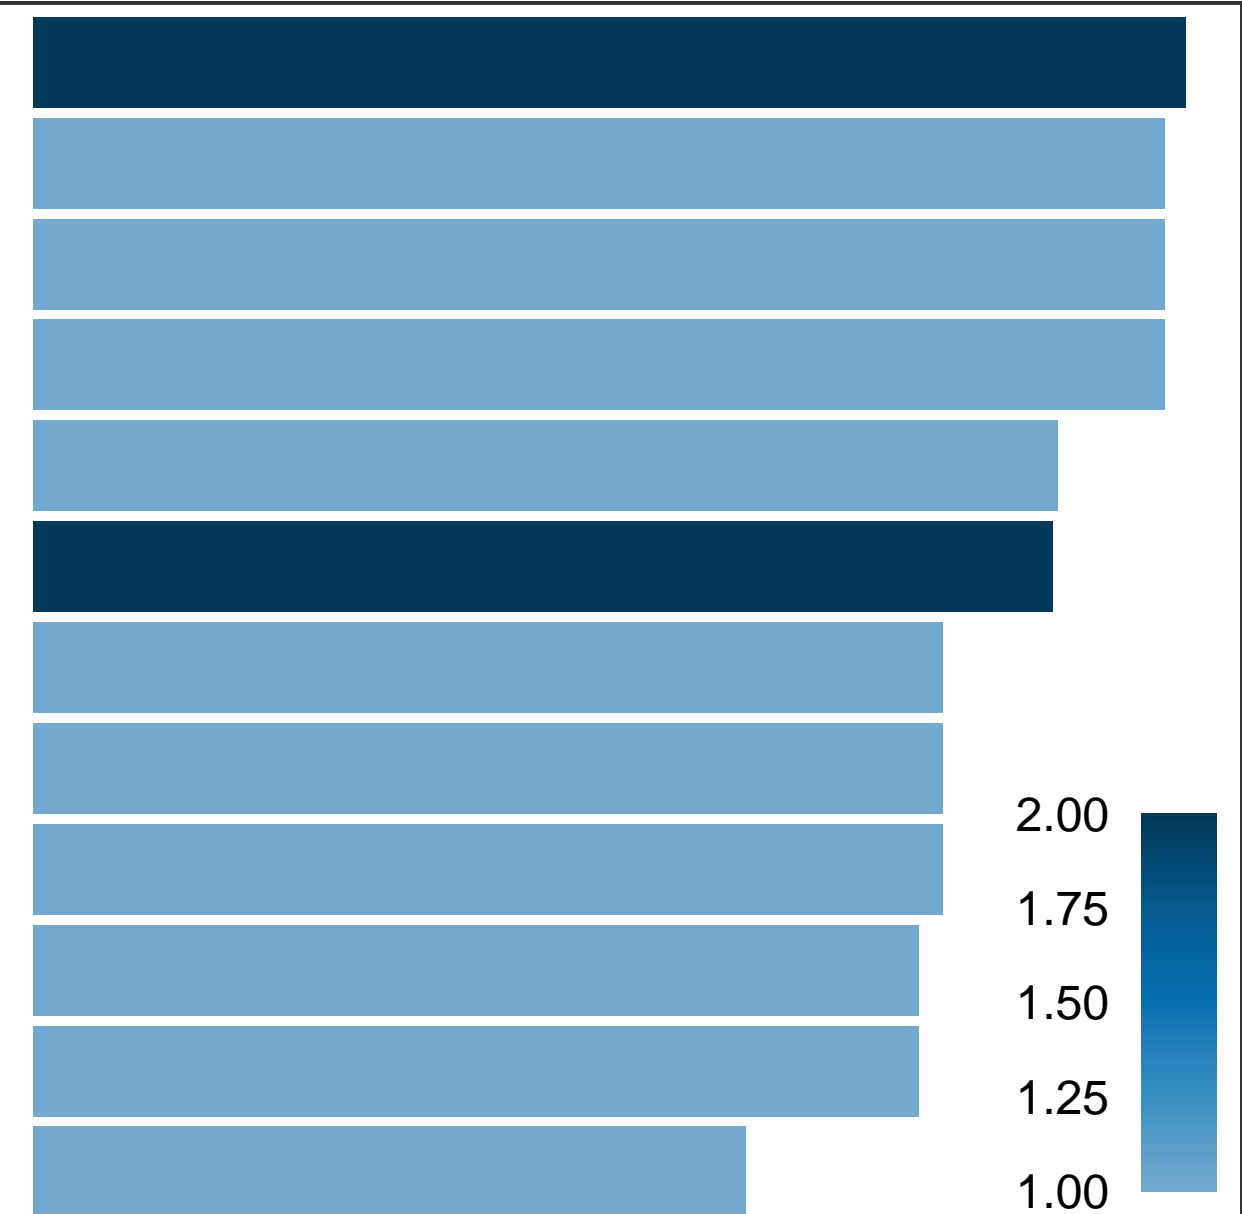

GO:0007186, G protein-coupled receptor signaling

GO:0006006, glucose metabolic process

GO:0042773, ATP synthesis coupled electron transport

GO:0000398, mRNA splicing, via spliceosome

GO:0006096, glycolytic process
